MODEL
10338 (250mm)

DUCTED CEILING EXHAUST FAN AND LIGHT

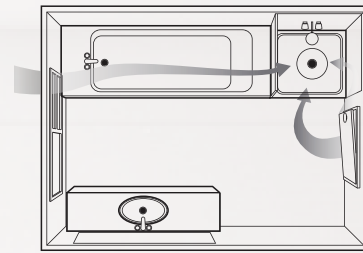

200mm / 250mm

The Ducted Ventflo Ceiling Exhaust Fan & Light is designed to fit a ceiling cavity with a minimum height 210mm (for model 10334) and 242mm (for model 10337), and has a 125mm diameter (for model 10334) and 150mm diameter (for model 10337) duct outlet.

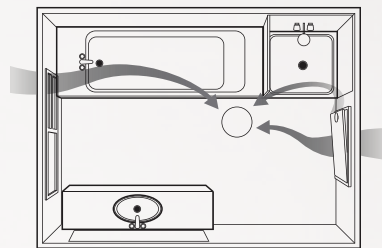

The Ducted Ventflo Fan & Light works by drawing air from the room, and as with all exhaust fans, it is essential that sufficient air inlets exist through windows, vents or under doors.

The Ducted Ventflo must be installed in accordance with current wiring rules (AS/NZ3000) by a licensed and registered electrical contractor or similarly qualified person.

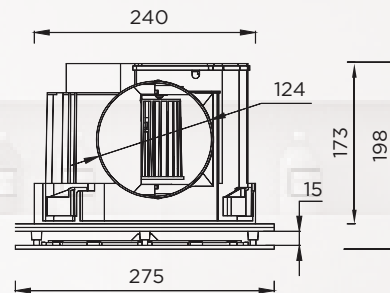

Ducting is not included in these models.
