

HYDROJET HJ100

Domestic water pump

APPLICATION

Budget model suitable for medium sized two level homes and home rainwater irrigation systems

DESIGN FEATURES

- Fully automatic
- In-built run dry protection
- Suitable for mains and low pressure systems
- Two year parts and labour warranty
- Very low maintenance
- Suitable for use with above or below ground water tanks, wells bores and spear points
- Provides constant pressure at constant flow

TECHNICAL DATA

Construction Case/Impeller	S/Steel S/Steel	Power Supply	230v/1ph/10amps
Operation	Presscontrol	Inlet	25mm
Pump Type	Jet	Outlet	25mm
Pressure Tank Options	8 L optional	Maximum Head	44m
Motor (kW)	0.75	Max Flow	65 ltr/min
Full Load Current (amps)	4.5	Weight	11.5kg
Dimensions (mm)	Height 500	Width 230	Length 390

NOTE: The above Performance graph is measured at pump outlet and based on factory test conditions. Actual performance onsite may differ due to piping and fixture sizing and layout
