

# INSTALLATION GUIDE

## Regal over the bath shower unit (RW)

### REGAL OVER THE BATH SHOWER UNIT

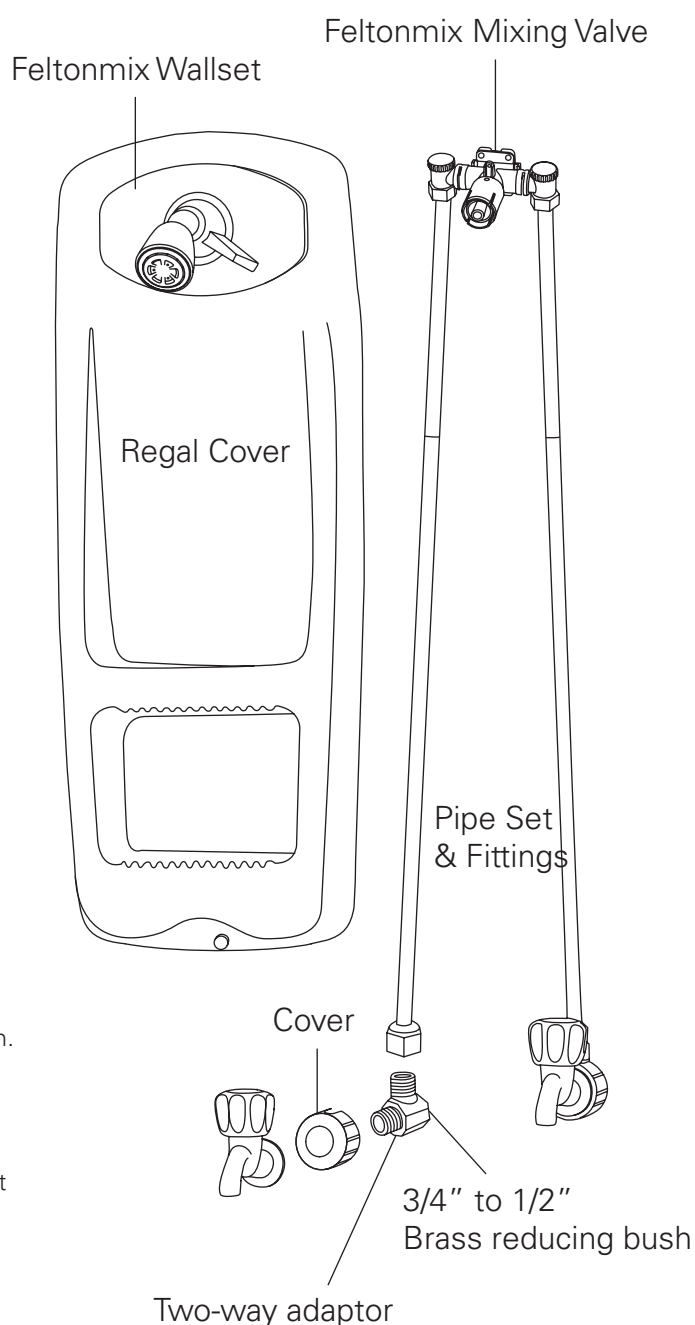

The Regal is designed to convert an existing bath into a bath/shower. It attaches to existing taps and requires only the simplest of tools.

### CONTENTS OF INSTALLATION PACK

1. 1 x carton containing shower valve & screw pack
2. 1 x carton containing wallplate, handle, screw pack & shower head
3. 1 x Regal cover (800 x 300mm)
4. 1 x screw pack with plastic toggle, cap & cover
5. 2 x adaptor covers
6. 2 x adaptors with bushes
7. 1 x pipe set (1500mm long pipes with fittings)
8. 1 x roll of Ceelon thread seal tape
9. 1 x Bag of restrictors with fitting instructions

### INSTALLATION INSTRUCTIONS

1. Turn off the water at the mains. Remove bath taps and re-install with tap adaptors and covers fitted behind them. Adaptors are provided with a bush to accommodate  $\frac{3}{4}$ " or  $\frac{1}{2}$ " BSP threads. Seal threads with Ceelon thread tape.
2. Mount shower mixing valve on wall at desired height (not exceeding 1500mm above taps). Add an additional 5-6mm to the calculated pipe length to allow for bends to reach taps.
3. Connect pipes between shower valve isolators and bath tap adaptors. Fit white sleeve at bottom of pipe using long nuts. Connect hot water to red shower valve isolator, cold water to blue. If hot and cold water pipes are reversed, turn shower valve through 180° and rotate isolators to point downwards.
4. Check that there are no leaks to shower valve by closing isolators and turning on mains. Test further for leaks as follows:
  - a) Fit shower handle and turn anticlockwise to OFF position.
  - b) Turn on isolators. All joints must be watertight.
5. To complete installation of shower valve,
  - a) Remove shower handle.
  - b) Remove protective plastic film from Regal cover and fit it and the wallplate to shower valve.
  - c) Fit handle and screw in shower head.
  - d) Attach base of Regal cover using screw, cap and cover supplied. Use plastic toggle if fastening to wallboard, brick or block.
6. For Mains Pressure fit white restrictor using tool as directed into stem of showerhead

## WARRANTY, MAINTENANCE & CARE

Felton Industries Limited guarantees its Regal Over the Bath Shower Unit to be free from defects in materials and workmanship for a period of five (5) years from the date of purchase. Proof of purchase (as below) may be required.

Felton Industries Limited undertakes at its sole discretion to repair or replace any faulty product within the warranty period. This warranty does not cover any damage to product due to abuse, negligence or improper installation.

This warranty is given on the understanding that the product is installed and operated according to this installation guide and the Australian/New Zealand standard AS/NZS3500, by a registered plumber.

Please fill in details below, attach your receipt to this installation guide leaflet and keep as proof of purchase.
