

T60X Electric Shower

An entry level, value for money shower, combining simple design with easy to use functionality. If you are looking for a low cost shower with minimalist styling but the functionality of higher value showers, then this is the shower for you. Separate temperature and power controls and a low pressure indicator provide functionality to this shower.

- Low pressure indicator – operates when the water pressure is insufficient
- Separate power and temperature control dials
- Rub clean shower head – Single spray pattern
- Two year parts and labour guarantee
