iStone Soft Square Basin 480 x 380 x 110mm Marble Basin

480mm x 380mm x 110mm high

Carved from a solid marble stone which is dimensionally accurate, non toxic and durable.

The beauty of marble products is that they have been formed over a million years. Originally beginning life as limestone, after being subjected to extreme pressure and temperatures, it recrystallizes to form marble with intricate patterns and colourations. Because marble is a natural product it is therefore subject to colour variations, crystallization marks and surface variations. This is part of the natural beauty of the stone.

Note: Clikclak wastes are sold separately

CARE AND USE

Marble and Natural Stone

Marble is very easy to maintain, however with the surface being porous it does need a little care. A regular quick wipe with a clean cloth & tap water, or methylated spirits dabbed on to a clean cloth, or dishwashing liquid and warm water can be used. This will break down greasy and oily residue from grooming products.

LIMITED PRODUCT WARRANTIES

To be read in conjunction with and subject to all terms and conditions contained in the Waterware 'Producer Statement' available on-line (<http://www.waterware.co.nz/media-downloads>) From date of purchase, Waterware Services warrants products from the following categories to be free from manufacturing defect subject to exclusions (if applicable):
