---

**Power Rating** 0.16kW

---

**Dimensions** 335mm x 280mm x 475mm

---

**Warranty** 12 months

---

## Installation Requirements

1. Installation and connection of your Zenith ChillTap must be carried out by a qualified person, observing national and local regulations.
2. You will require suitable mains electrical and drinking water connections, plus waste water drainage all within 1.5 metres of the product.
3. ChillTap is air-cooled so discrete cabinetry cut-outs are required for ventilation.
4. Installation on most bench tops is straightforward however some stone bench tops may require a specialised cutting service.
5. If you live in a hard water area, we recommend installation of a scale filtration kit.
6. Installation by Zenith Professional Service can be arranged with a phone call or through [www.zenithwater.co.nz](http://www.zenithwater.co.nz)
